Sub: Proposal to Provide Study Material in Soft Copy on Campus Kiosk

Respected Madam,

I am writing to propose an initiative that I believe would greatly benefit the students of our college. In light of the increasing use of technology in education, I would like to suggest setting up study material in soft copy format on kiosks within the college campus.

Many students often face difficulties accessing important study materials, either due to limited availability of printed notes or textbooks. By placing soft copies of essential academic resources on a campus kiosk, students would be able to easily access and download the materials they need. This would not only improve accessibility but also promote an eco-friendly approach by reducing the need for printed materials.

I kindly request you to consider this proposal, as I believe it will greatly enhance the learning experience and contribute to the academic success of the student body. I would be happy to assist in the planning and implementation of this initiative.

Thank you for your time and consideration. I look forward to a positive response.

Yours sincerely,

Anup

NOTICE

Date: 24-08-2024

All students of the college are being informed that teaching learning materials like presentations, notes of their subjects etc. are being shared with you, through the college kiosk. Students may access or copy them for teaching learning purposes.
